

# CLOSED-LOOP SOLUTIONS FOR C&D

## CONSTRUCTION & DEMOLITION MATERIAL RECOVERY

Construction and demolition material makes up anywhere from 15% to 80% of the waste stream in Colorado and represents some of the heaviest material going to landfill. This round table discusses how to create closed-loop solutions for C&D recovery and diversion both on the Front Range and in rural communities.

SESSION DATE:

**Monday, June 4**

---

SESSION TIME:

**2:30 PM**

---

### FACILITATORS

Jerry Williams, Denver International Airport

### SUBJECT-MATTER EXPERTS

- Bill Bradley, President, 5280 Waste Solutions - 5280 provides dumpster rental services, recycling, and roll-off services to residents, contractors and commercial clients along the Front Range.
- James Gaspard, EVP Business Development, BioChar Now - BioChar Now makes and sells biochar, a highly adsorbent, specially-produced charcoal.
- Stella Hodgkins, Sustainability Specialist, GE Johnson Construction Company - Provides a full spectrum of integrated project delivery services, specializing in complex and schedule-driven projects in a variety of niches.
- Mark Kunugi, Environmental Public Health Manager, Denver International Airport - DIA is the 18th-busiest airport in the world and the sixth-busiest airport in the United States, with 58.3 million passengers traveling through the airport each year.
- Jonathan Nagel, Environmental Compliance Inspector, City of Fort Collins - Fort Collins' building code requires a construction waste management plan for new buildings.
